**Faunistics, new record, Coleoptera, Cryptophagidae, *Cryptophagus*, Czech Republic**

**Abstract.** The species *Cryptophagus hexagonalis* Tournier, 1872 is newly recorded from the Czech Republic.

#### **Coleoptera: Cryptophagidae**

***Cryptophagus hexagonalis* Tournier, 1872.** Bohemia bor., České Švýcarsko, Zadní Doubice env. (5052), 1.vi.2003, 1 spec., sifting, J. Strejček lgt., L. Ernest det., coll. J. Háva. The specimen was collected together with *Atomaria rubella* Heer, 1841 and *A. fuscata* (Schönherr, 1808). Reported from Belarus, China: Inner Mongolia, Jordan, Finland, Kazakhstan, Russia, Turkey and Turkmenistan (Johnson et al. 2007, Haddad et al. 2008). New to Czech Republic.

**ACKNOWLEDGEMENTS.** We would like to thank Jan Růžička (Praha, Czech Republic) for comments on and corrections to the manuscript. The first author thank Jaromír Strejček (†) for providing us with the interesting material.
